Federal Economic Development Initiative for Northern Ontario (FedNor)	Canadian Rural Partnership	http://strategis.ic.gc.ca/epic/site/fednor-fednor.nsf/en/h_in00000e.html	FedNor is a federal regional development organization in Ontario that works with a variety of partners, as both a facilitator and catalyst, to help create an environment in which communities can thrive, businesses can grow and people can prosper.	Capitalize investment funds of Northern Ontario CFDCs to assist local businesses through loans, loan guarantees or equity investments.
Community Futures Program	Canadian Rural Partnership	http://www.communityfutures.ca/home/index-eng.html	Designed to stimulate and enhance economic and business development in rural communities throughout Canada:	
SR & ED Tax Credit	Department of Finance	http://www.fin.gc.ca/	The Scientific Research and Experimental Development (SR&ED) program is a federal tax incentive program to encourage Canadian businesses of all sizes and in all sectors to conduct research and development (R&D) in Canada that will lead to new, improved, or technologically advanced products or processes. The SR&ED program is the largest single source of federal government support for industrial research and development.	Claimants can apply for SR&ED investment tax credits for expenditures such as wages, materials, machinery, equipment, some overhead, and SR&ED contracts.
Genome Canada	Industry Canada	http://www.ic.gc.ca/	Together with its six Genome Centres and with other partners, Genome Canada invests and manages large-scale research projects in key selected areas such as agriculture, environment, fisheries, forestry, health and new technology development. Genome Canada also supports research projects aimed at studying and analyzing the ethical, environmental, economic, legal and social issues related to genomics research (GE3LS)	
Industrial Research Assistance Program (IRAP)	National Research Council	http://irap-pari.nrc-cnrc.gc.ca/main_e.html	Program (NRC-IRAP) provides a range of both technical and business oriented advisory services along with potential financial support to growth-oriented Canadian small - and medium-sized enterprises. Working directly with these clients, NRC-IRAP supports innovative research and development and commercialization of new products and services.	NRC-IRAP provides non-repayable contributions to Canadian SMEs. NRC-IRAP also provides mentoring support and invests on a cost-shared basis for research and pre-competitive development technical projects
Collaborative Research and Development Grants Program	NSERC	http://www.nserc-crsng.gc.ca/	In the context of improved health for Canadians, the objectives of the Collaborative Health Research Projects (CHRP) program are to: translate research results to end users and stakeholders, encourage the NSERC and CHRP communities to collaborate and integrate their expertise in their novel research activities, advance interdisciplinary research leading to knowledge and technologies useful for improving the health of Canadians; and train highly qualified people in collaborative and interdisciplinary research of relevance to health.	research grant
Idea to Innovation (I2I)	NSERC	http://www.nserc-crsng.gc.ca/	The objective of the Idea to Innovation (I2I) Program is to accelerate the pre-competitive development of promising technology and promote its transfer to Canadian companies. The program supports research and development projects with recognized technology transfer potential by providing crucial assistance to college and university faculty members in the early stages of technology validation and market connection.	In the first phase, the direct costs of research will be entirely supported by NSERC; in the second phase, they will be shared with a private partner

Industrial Research Chairs	NSERC	http://www.nserc-crsng.gc.ca/	To assist universities in building on existing strengths to achieve the critical mass required for a major research endeavour in science and engineering of interest to industry; and/or assist in the development of research efforts in fields that have not yet been developed in Canadian universities but for which there is an important industrial need; and provide an enhanced training environment for graduate students and, where appropriate, postdoctoral fellows, by exposing them to research challenges unique to industry and the opportunity for significant ongoing interactions with the industrial partner(s)	An IRC grant provides funding for the salary of the Chairholder, infrastructure, research tools and instruments, and general expenses related to the Chair's program of research.
Industrial Research Fellowships	NSERC	http://www.nserc-crsng.gc.ca/	To encourage excellent recent Ph.D. graduates in science and engineering to gain experience and seek careers in Canadian industry; promote awareness in Canadian industry of the capabilities of Canadian universities and university research; facilitate the transfer of expertise and technology; and provide an opportunity for Ph.D. holders seeking university careers to gain experience in industrial research and development.	\$30,000/year for two years plus a minimum company contribution of \$10,000 per year
Innovation, Research, Technology Development	Canadian Foundation for Innovation	http://www.innovation.ca/index.cfm	The Canada Foundation for Innovation (CFI) is an independent corporation created by the Government of Canada to fund research infrastructure	The CFI normally funds up to 40 percent of a project's infrastructure costs which are invested in partnership with eligible institutions and their funding partners from the public, private, and voluntary sectors who provide the remainder.
Research Chair Program	Canada Research Chairs	www.chairs.gc.ca	The Canada Research Chairs Program offers eligible Canadian degree-granting institutions the opportunity to nominate outstanding researchers for senior professorships in areas that will further the institution's overall research priorities and enable them to maximize their contributions as centres of research and research training.	For each Tier 1 Chair, the university receives \$200,000 annually for seven years. For each Tier 2 Chair, the university receives \$100,000 annually for five years

Nutri-Net Database - Tier Two Programs

British Columbia

Program Title	Delivering Agency	web URL	Purpose of Program	Nature of Funding Offered	Eligible Applicants
Community Venture Capital Program	Ministry of Economic Development	http://www.ecdev.gov.bc.ca/ProgramsAndServices/BusinessServices/Investment_Capital/Venture_Capital_Programs/CVCP.htm	The Community Venture Capital Program supports regional economic diversification and is an add-on to the Equity Capital Program.	An additional \$3 million in tax credits over and above the Equity Capital Program Budget is available for share capital that is invested in eligible small businesses operating outside of the Greater Vancouver and Capital Regional Districts.	In addition to the Equity Capital Program criteria, 'eligible small businesses' must also be substantially engaged in an activity that promotes community diversification.
Equity Capital Program ("ECP")	Ministry of Economic Development	http://www.ecdev.gov.bc.ca/ProgramsAndServices/BusinessServices/Investment_Capital/Venture_Capital_Programs/ECP.htm	The Equity Capital Program was created to encourage equity investment in eligible small businesses in British Columbia.	To recognize the risk element involved in making equity investments, the Province provides a 30% refundable tax credit to investors who invest in eligible small businesses under the program.	A small business must meet the following requirements to qualify, together with affiliates, have no more than 100 employees; pay at least 75% of the wages and salaries to employees who regularly report to work in British Columbia; and be substantially engaged in a prescribed activity.
Community Impact Grants Program	BC Medical Services Foundation	http://www.vancouverfoundation.bc.ca	By providing funding for innovative research, student bursaries in the health sciences, and skills development, Vancouver Foundation is supporting new approaches to community health and ensuring British Columbians play an active role in the well-being of their communities.	We provide grants of up to \$50,000 to research projects in academic, clinical and community settings that have the potential to impact health and improve the quality, efficiency and effectiveness of health care in British Columbia.	Project grants are available to: BC post-secondary educational institutions, Health and community organizations that are designated by Canada Revenue Agency as qualified donees or registered charities Development grants of up to \$5000 are occasionally provided to researchers in a college, clinical or community-based setting to help them conduct a small pilot to test the efficacy of a research project (eg. recruitment, methods, instruments, etc.).
Agri-Food Partners in Healthy Eating (AFPHE)	BC Agriculture Council	www.bcac.bc.ca	Part of the ActNow BC program, the purpose of the AFPHE is to promote, support and encourage agri-food industry initiatives and activities that proactively "make the healthy choice the easy choice" for British Columbians, and to provide as many B.C. products as possible to meet their healthy food choices.	doesn't seem to be funding right now, more of a marketing strategy	
FII Market Development Programs	Ministry of Forestry and Range	http://www.bcfii.ca/	Mostly aimed at lumber industry. Project activities must be focused on BC forest products. Where a national organization wishes to apply for FII funding, its proposal should clearly identify the activities that relate to BC and their associated value to the industry. The application should also clearly show that the industry cost-sharing contributions will be provided by BC-based companies supporting the project.	Funding will only be available for incremental programming; FII will consider funding new programs, not current initiatives being funded through other sources. In most cases FII funding is matched by federal funding through the Canada Wood Export Program or association funding. Typically FII funds between one third and one half of the cost of a project.	Funding will be directed only to groups or associations representing multi-company partnerships, and serving the objectives of a large geographic area, or the majority of producers of a specific species, or product category. funding will be restricted to existing or special purpose industry groups / trade associations (primary or secondary), academic and forest research institutions or BC Government ministries.

Saskatchewan

Program Title	Delivering Agency	web URL	Purpose of Program	Nature of Funding Offered	Eligible Applicants
Canada-Saskatchewan Western Economic Partnership Agreement	Saskatchewan Industry and Resources	http://www.ir.gov.sk.ca/	Through joint federal and provincial support, WEPA provides funding for projects that build and sustain economic growth and opportunity in Saskatchewan; Diversification and Value-Added: Includes investments to further develop value-added processing activities; increase economic infrastructure to develop primary resource industries, tourism and environment.		Eligible applicants must be legal entities and include non-profit organizations; post-secondary institutions, hospitals or regional health care centres engaged in research; or other provincial agencies or legal entities created by the provincial government. Any organization, agency, university or group that requires funding for a project, which would have a measurable impact on the economic development of the province. Individual commercial businesses or commercial activities will not be eligible for support.
Co-operative Development Assistance Program	Regional Economic and Co-Operative Development	http://www.recd.gov.sk.ca/CDAP	The Government of Saskatchewan is committed to supporting economic development and diversification in Saskatchewan through the development of new co-operatives. The purpose of the Co-operative Development Assistance Program (CDAP) is to encourage and support the development and expansion of co-operative enterprises. Saskatchewan Regional Economic and Co-operative Development administers CDAP.	New co-operatives and co-operatives considering an expansion into new areas of business activity are eligible for up to \$10,000 to cover eligible expenses. For-profit co-operatives, with the exception of Employment (Worker) Co-operatives where a primary objective is to provide employment for members will be required to match any funding on a 50/50 basis. Not-for-profit co-operatives and Employment (Worker) Co-operatives will be funded up to 90 per cent of eligible funding, with 10 per cent to be cash from the applicant.	Any co-operative business incorporated or registered under The Co-operatives Act, 1996, or The New Generation Co-operatives Act is eligible to apply, or any legal entity proposing a co-operative structure for their business opportunity.
Saskatchewan Market Assessment of Research and Technology (SMART) Program	Saskatchewan Industry and Resources	http://www.ir.gov.sk.ca/	The Saskatchewan Market Assessment of Research and Technology (SMART) Program provides access to specialists in the emerging field of competitive intelligence. The province and the National Research Council (NRC) will each provide \$75,000 per year over the next two years toward the pilot program	The SMART Program gives small- and medium-sized businesses access to industry specialists. These specialists will find and analyse information on the marketplace and emerging technologies in order to help companies make strategic business decisions. Eligible projects can receive up to 75% of their costs to a maximum of \$15,000.	The SMART Program is available to any Saskatchewan registered, small- and medium-sized company with fewer than 200 employees. be eligible for NRC-IRAP funding and approved as a NRC-IRAP client; and have developed or be developing a new product, process or system based on an innovative application of science and technology; or acquired technology, which is not currently in use in Saskatchewan, from another company or university through a technology transfer process.

Manitoba

Program Title	Delivering Agency	web URL	Purpose of Program	Nature of Funding Offered
Community Enterprise Development Tax Credit	CED Tax Credit Office	http://www.gov.mb.ca/agriculture/ri/pdf/tax_credit_broch.pdf	The Community Enterprise Development Tax Credit is an innovative tax incentive that encourages Manitobans to invest in opportunities in their communities and target development where it is considered most desirable. It provides community-based enterprises with the means to raise needed equity capital.	A Manitoban who invests in approved eligible local enterprises will earn a 30 per cent personal income tax credit on a maximum annual investment of \$30,000, or up to \$9,000 in tax credits. No one individual can acquire more than 10 per cent of an issue. The tax credits offset Manitoba income tax payable. The maximum amount that an enterprise or CDIF may raise, that will be eligible for the tax credit, is \$500,000. However, projects requiring larger amounts of capital will also be considered.
Community Works Loan Program	Manitoba Agriculture, Food and Rural Initiatives	http://www.gov.mb.ca/agriculture/	The Community Works Loan Program is a unique community-driven investment tool. It is designed to help with new small business starts and expansions that will create jobs. Most importantly, it puts the financial decision-making in the hands of community leaders who become directly involved in mentoring, assessing and funding home-based and small business ventures in their communities.	Approved clients can receive up to \$10,000 at competitive interest rates to help them start or expand a business. Clients repay the loan, in regular installments, as they would to any other financial institution. Repaid capital is then lent out to other clients.

Programs and Tools to be Energy Wise	Hydro-Québec	http://www.hydroquebec.com/energywise/index.html	To provide a suite of opportunities to assist industry in improving energy efficiency.	rebates, grants
Fonds d'intervention économique régional (FIER)	Investissement Québec	http://www.investquebec.com/en/index.aspx?page=1771	The Regional Economic Intervention Fund (FIER) is a development fund designed to help companies obtain financing (equity or quasi-equity) at the start-up and development stages. It also aims to support the creation of sector funds and the implementation of development projects, mainly in the regions.	For each dollar invested by the community, the government injects \$2, with a range of upper limits from \$250,000 to \$750,000 depending on the type of assistance being provided.
Programme de Recherche Technologique En Bioalimentaire	MAPAQ	http://www.mapaq.gouv.qc.ca/NR/rdonlyres/6C046862-82A3-492B-A703-FF376B8BC151/0/RTB4.pdf	Les objectifs de ce programme sont les suivants: améliorer la compétitivité des entreprises du bioalimentaire, et répondre aux attentes de la société en matière de sécurité alimentaire, d'environnement et de développement régional. Le gouvernement du Québec, seul ou en concertation avec l'industrie ou d'autres gouvernements, accordera une aide financière pour la réalisation de projets de recherche technologique.	Les subventions pour les projets de recherche sont versées directement aux institutions de recherche requérantes qui les administrent et qui mettent cet argent à la disposition des responsables scientifiques. L'aide financière est versée de la manière suivante : L'aide financière est payée en trois (3) versements annuels à la suite de l'acceptation de la subvention proposée. Le premier tiers est payé en juin, le deuxième tiers en septembre et le dernier tiers en janvier Dans le cas d'un projet rendu à sa dernière année, une retenue de 25 % de la subvention de l'année en cours est appliquée et sera remise après dépôt d'un rapport final dans le délai prescrit, soit avant le 15 décembre suivant la date de fin du projet. Passé cette date, la retenue ne sera pas versée. Aussi longtemps que le rapport final n'aura pas été soumis, la ou le responsable scientifique n'obtiendra plus de financement pour d'autres projets (tant pour les nouveaux projets que pour les projets en renouvellement sous sa responsabilité). De plus, la personne responsable d'un projet dont le rapport
Transformation Alimentaire Québec	MAPAQ	http://www.mapaq.gouv.qc.ca/Fr/Transformation/Services/TRANSAQ/TRANSAQ.htm	Transformation Alimentaire Québec (TRANSAQ) a pour mission d'appuyer le développement de l'industrie de la transformation alimentaire au bénéfice de l'ensemble des régions du Québec : en offrant aux entreprises de transformation alimentaire un accès intégré aux différents services et programmes gouvernementaux qui leur sont destinés en mettant à contribution de manière coordonnée et active les agents gouvernementaux concernés par les besoins et les projets des entreprises en offrant, en raison de son expertise, les produits et services gouvernementaux propres à l'industrie	several funding strategies available

Programme d'aide aux entreprises / Assistance program for businesses	Ministère du Développement économique, de l'Innovation et de l'Exportation du Québec (MDEIE)	http://www.mdeie.gouv.qc.ca/page/web/portail/en/ministere/nav/programs.html?&iddoc=60760	The assistance program for businesses is part of an integrated range of services through which a business establishes its current situation and its needs with the help of a departmental advisor. Then, a project for developing the business is elaborated jointly and, as applicable, financial assistance is granted for certain activities.	
Financial Assistance	Ministère du Développement économique, de l'Innovation et de l'Exportation du Québec (MDEIE)	http://www.mdeie.gouv.qc.ca/page/web/portail/en/ministere/nav/programs.html?&iddoc=43552	This group of financial programs includes assistance measures for partnerships, industrial clusters, the promotion of scientific culture, information transfer, investment projects, research, and exterior market development.	varied
Programme d'aide à la recherche technologique /PART	Ministère de l'Éducation, du Loisir et du Sport du Québec (MELS)	http://www.formulaire.gouv.qc.ca/cqi/affiche_doc.cqi?dosier=3696&table=0	Les objectifs poursuivis par le programme d'aide à la recherche technologique (PART) sont les suivants: soutenir la recherche appliquée réalisée par un établissement ou par un centre collégial de transfert de technologie dans les entreprises du Québec; favoriser et mettre en valeur la participation du personnel enseignant à des activités de recherche appliquée.	La subvention demandée est établie en fonction du volume d'activités de recherche d'un projet donné. Nonobstant ce qui précède, l'allocation de base ne peut excéder 36 000 \$ par projet. Selon l'enveloppe budgétaire disponible, chaque équivalent à temps complet (ETC) dégagé par l'établissement d'enseignement donne lieu à une subvention établie selon un ratio de 20 000 \$ par ETC dégagé (chercheuse enseignante ou chercheur enseignant uniquement). L'allocation de cette somme supplémentaire ne s'applique que dans le cas d'une enseignante ou d'un enseignant à l'emploi de l'établissement d'enseignement (mais non du centre de transfert), temporairement libéré d'enseignement, et ce, pour participer à la recherche. À titre d'exemple, un dégagement de 0,25 ETC génère une subvention de 5 000 \$.
Crédit d'impôt pour demande de services d'adaptation technologique	Ministère du Revenu du Québec	http://www.revenu.gouv.qc.ca/eng/entreprise/impot/credits/adaptation/dem_adaptation.asp	This credit is intended to provide support to businesses in a number of areas: collection and processing of strategic information; innovation; research; and collaboration with other partners in the business sector. The credit covers liaison and transfer services.	The credit is determined by multiplying by 50% the qualified expenditures the corporation incurs with an eligible liaison and transfer centre or an eligible college centre for the transfer of technology

New Foundland

Program Title	Delivering Agency	web URL	Purpose of Program	Nature of Funding Offered	Eligible Applicants	Geographic Target
Economic Diversification and Growth Enterprise Program	Department of Finance	http://www.fin.gov.nl.ca/fin/	The EDGE program offers a 10 year tax holiday to qualifying companies from provincial corporate income tax and payroll tax, followed by a five year phase-in of these taxes. A 10 year tax holiday from property taxes and/or business tax is also offered by municipalities declaring themselves as EDGE participants. The program also offers the lease of unserviced crown land for a nominal fee and the services of a dedicated government facilitator to new or expanding businesses.	Tax holiday	Companies	Newfoundland & Labrador
Scientific Research and Experimental Development Tax Credit	Department of Finance	http://www.fin.gov.nl.ca/fin/	This is a refundable credit of 15% of eligible expenditures made with respect to scientific research and experimental development activities carried out in this province.	Tax credit		Newfoundland & Labrador
Small and Medium Enterprise Fund	Department of Innovation, Trade and Rural Development	http://www.intrd.gov.nl.ca/intrd/SMEF.htm	The Small and Medium-sized Enterprise Fund provides term loans and equity investments to small and medium-sized businesses in strategic growth sectors with special emphasis on value-added manufacturing, information technology, aquaculture, bio-technology, marine services, agrifoods and tourism, where local competitive impact is not an issue.	Term loans; equity investments	Small & medium sized businesses	Newfoundland & Labrador
Commercialization Program	Department of Innovation, Trade and Rural Development	http://www.gov.nf.ca/intrd/	The Commercialization Program bridges an identified funding and investment gap between product research and product marketing. It provides financial assistance to private sector enterprises for activities leading to the development of innovative, market-ready products and services, including support for technology transfer activities. The program will assist companies in Newfoundland and Labrador that have difficulty securing investment or loans to develop innovative products or services.	Direct equity investment or conditionally repayable contribution	Incorporated businesses	Newfoundland & Labrador
Small Business and Market Development Program	Department of Innovation, Trade and Rural Development	http://www.gov.nf.ca/intrd/	The Small Business and Market Development Program provides new entrepreneurs and expanding small businesses with funding to help them acquire the necessary expertise to pursue new business ideas and new markets for their products or services. The program is intended to support new growth opportunities in the economy, such as value-added manufacturing activities and export-oriented opportunities.	Grant up to \$25,000	Small business (less than 50 employees), including corporations, co-operatives, etc	Newfoundland & Labrador
NLCAHR Project Grants	Newfoundland and Labrador Center for Applied Health Research	www.nlcahr.mun.ca	Project Grants will support an individual or a group of individuals led by a Principal Investigator. The purpose of these grants is to support small projects of high scientific quality that may not be eligible for funding from external sources and are of direct relevance to the mandate and priorities of the Centre.	Grant up to \$40,000 for 1 year	Medical researchers	Newfoundland & Labrador
Manufacturing and Processing Profits Tax Credit	Department of Finance	http://www.fin.gov.nl.ca/fin/	This credit applies to corporations that carry out manufacturing and processing from a permanent establishment located in Newfoundland and Labrador.	Tax credit. The credit allows a deduction from Newfoundland CIT payable of 9% on Taxable Canadian Manufacturing and Processing Profits. This results in an effective CIT rate of 5% for manufacturing and processing profits.	Corporations	Newfoundland & Labrador

Nutri-Net Database - Tier Two Programs

Nova Scotia

Program Title	Delivering Agency	web URL	Purpose of Program	Nature of Funding Offered	Eligible Applicants
Equity Tax Credit	Department of Finance	http://www.gov.ns.ca/finance/	Introduced in 1993, the Equity Tax Credit, or ETC, is designed to assist Nova Scotia small businesses, co-operatives and community economic development (CED) initiatives in obtaining equity financing by offering a personal income tax credit to individuals investing in eligible businesses. Equity financing is an alternative to other forms of financing such as debt and traditional government assistance.	tax credit	The credit is available to residents of Nova Scotia who are over 19 year of age and who have bona fide reasons for making the investment, other than simply obtaining the tax credit. Each eligible issue of shares must have at least three eligible investors.
Research and Development Tax Credit	Department of Finance	http://www.gov.ns.ca/finance/	Introduced in 1984, the Nova Scotia Research and Development Tax Credit (R&D credit) offers tax relief to incorporated Nova Scotia firms that incur qualified scientific research and experimental development (SR&ED) expenditures made in Nova Scotia, as defined by the federal Income Tax Act	tax credit	incorporated Nova Scotia firms
New Small Business Tax Reduction	Department of Finance	http://www.gov.ns.ca/finance/	The Nova Scotia Small Business Tax Deduction effectively eliminates the Nova Scotia Corporation Income Tax for the first two taxation years of a new small business incorporated after April 18, 1986 and three years for a new small business incorporated after April 24, 1992. The Corporation must apply, each year, to the Nova Scotia Minister of Finance for a Nova Scotia Tax Deduction Eligibility Certificate.	tax credit	All new businesses incorporated in Nova Scotia after April 18, 1986 that are: not associated with another corporation(s), not in a partnership or a joint venture with an ineligible corporation(s), not a beneficiary of a trust where any beneficiary is ineligible, not a previous active business with essentially the same owner(s) or related owner(s), not a professional practice of an accountant, dentist, lawyer, medical doctor, veterinarian or chiropractor, not a business carrying on the same, or substantially the same, business activity as was carried on as a sole proprietorship, partnership or corporation,
Nova Scotia First Fund	INNOVA Corp	http://www.innovacorp.ns.ca/	InNOVAcorp operates as an active and effective venture capitalist through our management of the Nova Scotia First Fund (NSFF), an early stage source of capital for Nova Scotia businesses.	The NSFF will consider initial venture investments in the range of \$100,000 to \$1,000,000 in early stage, fast growing companies	Nova Scotia based early stage company, Business plan credibility, management experience, and entrepreneurial track record, Unique proprietary technology (product, system, and/or service), with defensible intellectual property and/or a high barrier to competitive entry, Large national/international addressable market, Probability of obtaining fully-funded business plan
Community Economic Development Investment Funds	Office of Economic Development	http://www.gov.ns.ca/econ/	A CEDIF is a pool of capital, formed through the sale of shares (or units), to persons within a defined community, created to operate or invest in local business. Through the facilitation of the formation of CEDIFs, we aim to increase the amount of capital reinvested in Nova Scotia to 5% by the end of the year 2010. Having local capital available for investment will reduce the size of the financing hurdle for local entrepreneurs, thereby increasing the number of projects undertaken	Loan, tax benefits	It cannot be charitable, non-taxable, or not-for-profit, and must have at least six directors elected from their defined community.
Competitive Health Research Funding Programs	Nova Scotia Health Research Foundation	http://www.nshrf.ca	The Nova Scotia Health Research Foundation (NSHRF) is pleased to offer an array of programs collectively designed to lead to improvements in the health of Nova Scotians.	Grants	Medical researchers - all done for this year
